

DEDON

PARASOL

# PARASOL

Square

Design by DEDON Design Studio | Weight 11 kg/24 lbs

## Measurements

**Collection:** Don't be deceived by the elegant lightness of their appearance. DEDON's PARASOL sunshades are remarkably robust and functional. They open with ease thanks to an ingenious pulley system. Their UV-protected, easy-care canopies repel dirt and water. And all materials are of the highest quality, right down to their marine-grade stainless steel fasteners.

**Square:** PARASOL sunshade features a white or silver square canopy of top-quality Batyline® fabric. Its sturdy pole consists of teak-finished fiberglass for the white version or a mirror-polished aluminum for the silver version.

**Frame:** Base consists of concrete-filled, powder-coated aluminum shell. Canopy consists of Batyline® fabric. Pole and battens consist of teak-finished fiberglass or the white version or mirror-polished aluminum for the silver version. All fasteners consist of marine-grade stainless steel.

**Finishing:** Canopy features coating of varnish on exterior face.

**Characteristics:** Elegant, robust, sturdy, stable, durable, practical, functional

**Options:** Base trolley for easy transport is available. Protection cover is always delivered with the product.

**Frame Maintenance:** In locations close the ocean, frames should be washed regularly with fresh water. The protection cover should be cleaned regularly so that dirt and other substances do not accumulate and become embedded in the fabric. If the parasol is dismantled for storage, the canopy should be cleaned, allowed to air-dry and stored in a dry, well-ventilated area. To maintain its appearance, gently clean the base with soap and water, using a nonabrasive cloth or pad.
