Kvadrat PATIO, an upholstery textile developed for outdoors, offers exceptional color vibrancy. The result of three years of intensive research, it is a perfect fit with DEDON's standards of quality and design.

Designed by Karina Nielsen Rios, PATIO is made with a highly durable, specially developed Trevira CS yarn. It features a fluorocarbon-free, environmentally-focused finish that is water-repellent and fast-drying. It provides resistance against chlorine, seawater and artificial weathering and is flame-retardant. In addition to its technical features, it stands out for its soft touch.

Our materials are specifically created for DEDON and fulfill the highest of quality standards for exteriors. The acrylic materials are characterised by their high lightfast properties (7– 8) and the polypropylene materials have a lightfast rating of 6 –7.

PATIO has a subtle structure that combines two colored yarns in the warp and one in the weft. Depending on the level of contrast between the colors, PATIO can appear almost unicolored or more textured. PATIO is suitable for all outdoor spaces, as well as for areas such as spas and indoor pools, where high-humidity and chlorine are a factor.

DEDON has selected seven different color ways of PATIO. They represent a range of aesthetic approaches and complement DEDON's 33 fabrics.

CUSHIONS AND FABRICS

Cushions and fabrics

CUSHIONS YOU CAN LEAVE OUTDOORS

DEDON relies on some of the world's most advanced textile technologies to create cushions you can leave outside. Our high-quality acrylic materials are UV-resistant and specially treated to make them splash-resistant, with no loss of comfort. The foam cores, created exclusively for DEDON, and synthetic fiber padding are surrounded by a water-repellent, breathable, spun-bonded wrap. After a shower of rain, allow your cushions to dry so as to protect them from mold stains. We recommend storing your cushions for the winter or when not in use for long periods, and using covers to keep them at their best. Before storing, make sure they are completely dry. Our materials meet the highest standards of quality for outdoor usage. All fabrics are quick-drying and easy to maintain.

NINE FABRIC STYLES TO PLAY WITH

Each of the nine fabric styles in this catalog has a distinctive weaving structure that gives it a look and feel all its own. While any one of these fabrics is an ideal covering for cushions large or small, it's the opportunity to combine them that makes the DEDON collection so special. Play with textures. Mix the summerly lightness of COOL with the tweedy robustness of TWELLO. Create subtle differences of shade by working with multiple fabric structures in the same color. The flexibility and creativity long associated with the finest indoor fabrics can now be enjoyed under the open skies.
