Measurements

Collection: MBRACE by Sebastian Herkner takes a joyfully unconventional approach to poolside furniture, bringing DEDON fiber seating and a solid teak base together for the very first time. The result is an eye-catching, instantly likable collection for lounging, dining and more. MBRACE captures the spirit of barefoot luxury while extending the DEDON design language into new, more Nordic territory.

Characteristics: Friendly, engaging, embracing, innovative, exceptionally comfortable

Armchair: This iconic dining chair, which features a triaxial mesh weave and aluminum legs, is very low-maintenance.

Frame: The MBRACE ALU seats are made of DEDON Fiber woven over an aluminum frame and feature powder-coated aluminum bases.

Finishing: The seat frame is electrostatic powder-coated in a color similar to that of the fiber.

Frame maintenance: Clean with a soft cloth and warm water.

Cushion maintenance: Remove the cushions and wash at 30 °C / 86 °F.

Option: This new back cushion, together with the existing seat cushion, adapts to the wraparound shape of the armchair for even greater comfort.

Fiber standard / powder coating combination
