Measurements

Collection: SEALINE by Jean-Marie Massaud is a luxurious lounge collection with an easy-chic spirit. Designed to be elegant, comfortable and appropriate in any season or latitude, this compact system is equally at home on the terrace of an African lodge or the deck of a yacht in the Scandinavian fjords. SEALINE features a handcrafted teak frame, plush cushions and a backrest in a choice of maritime rope or extra-wide DEDON Fiber.

Characteristics: Timeless. Refined. Versatile.

Extended daybed right: Great as a stand-alone piece or as part of a modular configuration, the extended daybed right is available in four colors. Use additional back cushions for even greater comfort.

Frame: The frame consists of aluminum. The base consists of natural finish teak.

Finishing: The frame is electrostatic powder-coated in a color similar to that of the fiber and rope.

Frame maintenance: Clean with a soft cloth and warm water. Wash the teak bases with warm water in which natural soap flakes have been dissolved.

Cushion maintenance: Every cushion is removable and all cushion covers are washable at 30°C.

Options: Choose between DEDON Fiber and weatherproof rope. The backrests of the left and right modules and left and right modules XL can be flipped and used on the opposite sides.
